Neil O'Brein In Huntington

Neil O'Brein's famous misadventure is in Huntington tonight and Saturday. Bert Swor, who was with Al O. Fields for years, is one of the chief fun-makers in the show.

Prize Schell, in her latest speech, "Glorious," will be in Huntington next week.

To Use Corn For Feeding

Many West Side farmers are complaining about men and boys stealing their corn. They claim that some of it can be used for feeding purposes after the river recedes and they want their corn left alone.

NEED MORE JUDGES

YOUNGSTOWN, O., Nov. 7.—Court business in Mahoning county has been so heavy that a meeting of the bar association has been called to draft a petition requesting the legislature to create another common pleas judgeship here. There are now three common pleas judges here and the lawyers say that cases two years old are being tried because of the court congestion.

FLIGHT POSTPONED

MENDEL, N. Y., Nov. 7.—The projected non-stop flight of the giant British Handley-Page bombing airplane to Chicago with a cargo of express matter was again postponed today on telegraphic reports that the landing at Chicago was a "quagmire." The airplane weighs fourteen tons and the managers of the flight decided it would be foolhardy to attempt a landing on a muddy field.

After Base Wood

Walter E. Don, of the C. E. Don Supply Company, Cincinnati, was in the city Thursday making an effort to get base wood used by engravers, the Don Company handling engraving supplies. There is a shortage of cherry and black walnut used for base wood and he left here with his wares fulfilled. Don went to Albany, Ind., from here to search for wood.

BANISH CATARRH

Breathe Hyonol for Two Minutes and Relieved Stuffed Up Head

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hyonol.

It should clean out your head and open up your nose in two minutes and allow you to breathe freely.

Hyonol often cures a cold in one day, and brings quick relief from sniffles, hard crusts in the nose, hawking, spitting and catarrhal mucus.

Hyonol is made chiefly from a soothing, healing antiseptic oil, that comes from the mysterious forest of inland Australia, where Catarrh, Asthma, Bronchitis, Tonsillitis, Influenza, Pneumonia and Consumption were never known to exist.

Hyonol is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and relief is almost certain.

3 complete Hyonol outfits, including inhaler and one bottle of Hyonol costs but little at Warbur Bros. and druggists everywhere. If you already own a inhaler you can get an extra bottle of Hyonol at drugstore.

Here's A Close Race

COLUMBUS, O., Nov. 7.—Secretary of State Smith was asked today to give an opinion on what was probably one of the closest election contests in Ohio Tuesday.

Voters of Lucas voted on the question of purchasing for the city the local waterworks system from Lucas Development Company. The result was 1382 for and 680 against. A two-thirds majority was required. Statisticians in the secretary of state's office decided the question had carried by one and one-third votes.

FINDS ONLY ONE GROCER SELLING RIPE OLIVES

Health Officer Dr. W. W. Smith today called on 30 local grocers, and found only one who was keeping the Curtis Brand of Ripe Olives.

Others were selling "Ripe Olives," but quite a number, the doctor said, did not know what ripe olives were, and offered to stop the sale of green olives. This is not necessary.

Ripe olives, the doctor stated, are black. No orders have been issued against the sale of green olives.

Dr. Smith suggested that all grocers who keep the olives should send him a sample and that he would have a test made to determine whether they were poisoned.

Touch

The basis of expression in piano playing also the basis of expression in playing.

The Manualo

In playing a piano, the fingers do two things. First, they pick out the keys (notes) to be struck as the music directs. That is the mechanics of playing. Second, they give to the mind the sensation of touch—the "feel" of the keys—so that the performer uses just the right force to secure the volume and accent desired. That is giving expression to the musical feeling.

In playing the Manualo, the perforations in the music roll pick out the keys (notes) to be struck. Thus, the mechanics of playing is taken care of mechanically. But the Manualo leaves to you the expression—enables you to color the music as your musical feeling directs because, through the pedals, you experience the same sensation of touch that the pianist obtains from fingering the keys.

The feet are naturally sensitive to these changes of touch. We dance to music. A lively tune puts action into your feet—not our hands. We even walk in rhythmic time. Unlike the hands, which have to be trained to finger the keys, the feet need but little practice to be instinctively guided by the "feel" of the pedals so that the natural musical impulses expressed through the pedaling make the Manualo respond with just the expression which your musical feeling desires.

In playing the Manualo, you have the pleasure of really playing a musical instrument—because you control the expression on the same principle that the pianist controls it—the principle of touch. You feel yourself determining the volume of every passage. You feel the melody singing its solo above the accompaniment. You feel the crashing chords. In a word through the pedaling you feel yourself playing the Manualo as intimately as if you were playing the piano by hand.

When you buy a Manualo, you get—not a mechanical player—but an instrument with the human touch. Send for our booklet.

The miniature musical comedy that the "Maryland Beauties" will offer Saturday is entirely different in type from either of the two preceding extravaganzas that the company has presented in Portsmouth this week.

Winter-Time Is "Flu"-Time

Avoid "Flu" By Taking Shamrocks

Influenza is a fall and winter disease. The United States Public Health Service, as well as local Physicians and druggists everywhere predict a return of the dreadfull malady. But the Flu will not hurt you much and you may escape it entirely if you use Shamrocks to cleanse the system. When feeling bad and out of it don't take calomel or strychnine—up— it's an irritant poison that will salivate. Take Shamrocks a vegetable compound that acts on the entire alimentary tract cleansing and purifying it as you go, and, oh so easy, gentle and harmless. No pain, no griping, no bad after effects. Shamrocks is guaranteed to get results or your money will be refunded. No substitute. All druggists 25 per package.

BETTER SPEECH PROGRAM GIVES PLEASURE TO A LARGE AUDIENCE

At the High School last evening the English Department of the High School presented a "Better Speech Week Program" before an appreciative audience, the auditorium being filled to capacity.

The program was the second of the week to be given under the direction of the English Department of the school, the first being presented during Chapel exercises last Monday morning, at which time Reverend E. A. Powell addressed the students on "Better English."

In the third and last play, "Alfred Evermann," the scene is laid in a courtroom in which "Alfred Evermann" is being tried for the murder of Miss English. Through the circumstances of Miss English's romance with her son, and through the conflicting evidence of the various witnesses combined with the address of the attorney for the defense (James Smith), the defendant is acquitted by the jury made up of boys and girls. William Cramer as Judge presided, his part with much ease and skill like an experienced "Court House" judge.

The road side by Heen Scott and the piano solo by Florence Bela, both rendered during the acts, were very pleasing and indicated the high standard of the musical talent of the two regular young chorists.

Arthur Rosenthal, as the boy in "Nevertheless," the first play, was at ease and natural throughout the entire scene. The action centered about "The Day" and "The Girl" (Grace Ruark) and the two kept things lively with their friendly argument on speech until Frank Benson, The Burlier, entered and upset their plans. The Burlier is referred to by the laudatory action of the two children and everything turns out lovely.

In the second play the action centers about "Dorothy, a child of today," the part which is taken admirably by Mamie Warner. The youngster is le-

ing taught correct English, rather for cially, by her elders, and it is a source of great delight to Dorothy who her elders should be so simple and particular to have her own correct English when they use the word "Huh" and "Well," as "Mabel," a colored servant, carried out her part with much humor and kept the audience in constant merriment while she was on the stage.

In the third and last play, "Alfred Evermann," the scene is laid in a courtroom in which "Alfred Evermann" is being tried for the murder of Miss English. Through the circumstances of Miss English's romance with her son, and through the conflicting evidence of the various witnesses combined with the address of the attorney for the defense (James Smith), the defendant is acquitted by the jury made up of boys and girls. William Cramer as Judge presided, his part with much ease and skill like an experienced "Court House" judge.

Court House

Parents Are Accused
Samuel and Eliza Hawley, 1128 Sixteenth street, were arrested and brought before the probate court yesterday to answer to a complaint alleging neglect of their children. They pleaded not guilty and after hearing their stories Judge Guilford continued the cases for further investigation and allowed the Hawleys to go on their own recognizance.

Will Take Case To Higher Court
Attorney Theo. H. Funk today announced his intention of carrying the case of James Thompson, young Pond Run farmer, sentenced to the penitentiary for life yesterday by Judge Thomas for the murder of Louis Metzger on September 29 last, to the Court of Appeals and with that end in view has ordered a transcript of the trial proceedings.

Attorney Funk will seek a reversal of the second degree murder verdict on the ground that under the evidence the accused is not guilty of a higher offense than manslaughter and that the second degree verdict was not warranted by the facts. The prisoner will probably be taken to Columbus Saturday. An effort will be made to have him transferred from the penitentiary to the Mansfield reformatory, it was stated today.

Suit In Partition
An action to partition real estate consisting of 100 acres in two tracts and situated in Clay township is sought in a suit filed in Common Pleas court today by Charles H. Peters, suing as an heir at law of John Peters, now dead, against John Peters, minor, and Anna Peters. The plaintiff claims a half interest in the premises subject to the dower interest of the widow of John Peters. The suit was filed through Attorney T. C. Beatty.

Want Real Estate Divided
A partition of the real estate at the southwest corner of Thirteenth and Waller streets is sought in an action filed in Common Pleas court today by Florence Flaker against Frank Flaker and others. The parties to the suit are heirs at law of Jacob Flaker, now dead. The suit was filed through Attorney R. F. Kimble.

Joan Rollins Asks Divorce
Charging willful absence Joan Rollins is seeking a divorce in a suit filed in Common Pleas court today through Attorney T. C. Beatty against Ella Rollins, whom he married 25 years ago. The couple have 5 children, the youngest of whom is 10 years old.

Charges Infidelity
Alleging infidelity and naming Arthur Windle and Alva Rankin as co-defendants, Elmer E. Hosier seeks a divorce in an action filed in Common Pleas court today through Attorney T. C. Beatty against Alice Hosier whom he married 12 years ago. The couple have one child, aged 9 years, and they have been separated six years.

Sentenced To Mansfield
Lawrence Cooper, Twin Creek young man, was given a suspended sentence to the Mansfield reformatory by Judge Thomas today when he appeared in court and changed his plea from not guilty to guilty to a charge of stealing timber from the Flax estate lands in Nile township. The defendant was indicted jointly with his three brothers, Edward, James and Fred Cooper, and their cases had previously been disposed of, Edward being the only one to receive a penitentiary sentence which he is now serving.

Alleges Fraud In Marriage
Earl Allison, 18, by Charles Allison, his father and next friend, is seeking an annulment of his marriage on Feb. 23 last to Inez Allison. In a suit instituted in Common Pleas court today on the ground of fraud.

Through Attorney F. W. Moulton the plaintiff declares that he was induced and persuaded to enter into the contract by alleged fraudulent representations of the defendant in holding herself out as a virtuous and chaste woman which representations he later discovered were false. He charges, Allison also says that immediately after discovering these facts and that conditions were not as they were represented he left the defendant and has since remained away from her.

Accuses Husband
Declaring that her husband is a changed man since his return from military service and that he has diverted his affections from her to another woman whom he met during the war, Maude Lee is seeking a divorce and alimony with custody of their two children, aged 2 and 4 years, in an action filed in Common Pleas court today through Attorney R. F. Kimble against Vitalious Lee, now located at Springfield, whom she married June 17, 1912.

She charges Lee with neglect and complains that upon his return from the army last Spring refused to live or have anything to do with her, treated her with indifference, in contrast to his former treatment, she says, and even told her he loved another woman.

Secure Restraining Order
On the ground that a suit is now pending in the Common Pleas court involving the same issue, a temporary restraining order to stop ejectment proceedings in Sarah Finney's court was granted Thursday by Oscar and Julia Moore through an affidavit against Kate McMahon and C. W. G. Hanzach.

Through the proceedings in the mortgage court it was sought to eject the Moore's from the property which they occupy on Campbell avenue and which they sold on June 30 last, and claim to have reserved the right to live in the house for one year without charge. Through Attorney R. F. Kimble the plaintiffs allege that the local title to the property was put in the name of Kate McMahon for the purpose of defrauding them by depositing the use of it.

PAPER FAMINE FORCES THE TIMES TO SEVEN COLUMNS

The Times tonight is appearing in what may be called a "form-fitting" size. The size of the paper has been reduced from eight columns to seven columns all because of the newspaper paper famine that exists in the country. In assuming the paper markets to relieve the local famine, The Times was able to secure a carload of seven column paper. With eight column stock virtually exhausted and the state of the market for other stock uncertain, it figured a half load was better than none, so to speak, and the seven column supply was gratefully accepted. By the next few days The Times will issue a seven column page instead of its standard eight column.

COAL STRIKE

(Continued from Page One)

To the mines already reported suffering from a coal shortage, Kansas, Nebraska, Alabama and Iowa, today was added Oklahoma.

"Follow the first law of nature which is self-preservation, and take any coal you can get your hands on," was the reply of Governor J. B. A. Robertson, of Oklahoma, to one county's appeal for aid. While it officially was announced that the director general of railroads that no general curtailment of train service was contemplated, sixty-six trains today had been cancelled in the central west. Regional directors had orders to eliminate service where absolutely necessary in the public interest.

West Virginia operators reported 44 mines in union districts being worked and a slight increase in production also was reported by Colorado mine operators. New Mexico producers said but half the miners normally employed were on strike.

Catarthal Deafness and Head Noises

Tells Safe, Sure Way To Treat And Relieve At Home

If you have catarthal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Permut (double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy while the distressing head noises, headaches, dizziness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and memory, drooping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly thirty per cent. of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless home treatment.

STATE FIRE MARSHAL QUILTS

COLUMBUS, Nov. 7.—State Fire Marshal T. Alfred Fleming, of Cleveland, today announced his resignation to become effective November 15. Governor Cox is expected to appoint W. B. Leonard, of Cincinnati, as his successor. Mr. Fleming becomes director of conservation of the United States for the national board of fire underwriters. His headquarters will be in New York. No other changes in the fire marshal's office were announced.

U. S. TROOPS REACH RHINE

COLUMBUS, Wednesday, Nov. 5.—(By the Associated Press)—Troops of the fifth infantry which arrived at Brest recently from the United States reached the Rhine today from Brest. These are the first units of a provisional infantry brigade to form a part of the army of occupation until it may be detached for its proposed service in upper Silesia in connection with the plebiscite there. Brigadier General William H. Sage, commanding the troops, will arrive Friday. The brigade is receiving equipment and horses from the army of occupation and from the French.

Sleep Vanished When Her Nerves Went To Pieces

Fast Repose and Other Blessings Came Back at Nerv-Work's Bidding

And they came quickly—with the use of less than a bottle of Nerv-Work. Here's the story, with the doctor's name and address: "Nerv-Work has—my nerves have been in a terrible condition. Could not do the smallest household duties nor sit down long enough to read the headlines of a paper. Sleepless and restless nights added greatly to my run-down condition. I saw an advertisement for Nerv-Work and I tried it. I began to feel better before taking one bottle. I have told many others what it has done for me and I certainly could not be without it in the future."

GERMAN ARMY SMASHED AND WASTED BY GREAT ALLIED ATTACK ON SOMME AND "OPEN VERDUN SORE"

By GENERAL ERICH LUDENDORFF

On September 6, 1918, the Field Marshal (Hindenburg) and I paid our first visit to the west. We traveled via Charleville, where General Headquarters had been established hitherto, to Cambrai, the headquarters of Crown Prince Rupprecht, of Bavaria.

The Crown Prince came to meet us on our way into Charleville. A company of famous von Rohr storm battalion formed the guard of honor for the Field Marshal. For the first time I saw a single detachment in full storming rigout, with steel helmets which had proved so extraordinarily useful. We had not had them in the east.

The Crown Prince was greatly pleased at the abandonment of the attacks on Verdun, a course he had long and earnestly desired. He discussed other matters also, and mentioned to me his desire for peace; he did not explain how this was to be obtained from the Entente.

In Charleville the Field Marshal saw the officers of main headquarters. The division of G. H. Q. into two groups, and the immense distance between them and Charleville, had proved very inconvenient in every way. The excellent telephone and telegraph service was no substitute for personal discussion. I would have preferred to have general headquarters entirely in the west, although not at Charleville, which was not a convenient place.

The German troops in France and Belgium had to bear the burden of the war in its most merciless form, and one's anxiety to be geographically near them was natural enough. G. H. Q. was, however, compelled to remain at Pless, as the operations in Humana required that we should keep in close touch with General von Conrad in Breslau. G. H. Q. were, therefore, moved to the west, and established in Pless, Kottwitz and other towns.

The conference in Cambrai took place on the morning of the 7th, while a violent struggle was proceeding on the Somme. We were all deeply affected by this terrible conflict.

The western front was not at all the time well organized. The constitution of the armies into army groups had not been carried far enough. Prince Rupprecht had been created as a result of the August Somme fighting. It included the 6th Army before Arras, which the Crown Prince himself had hitherto commanded, the 1st and 2nd, under General von Fritsch von Below and von Gallwitz.

The army group of the German Crown Prince was of earlier origin. It consisted of the 3rd Army near Rheims, the 5th at Verdun, led by the Crown Prince himself, and the army detachments, A and B in Alsace and Lorraine.

Not forming part of any army group was the 11th Army, under Field Marshal Duke Albrecht of Wurttemberg, on the right wing of the army and the 7th Army, under Colonel-General von Scholtz, between the two army groups. At first we decided to make no change in these arrangements, beyond putting the 7th Army in the Crown Prince Rupprecht's group, and shortly afterward forming special army group under the German Crown Prince.

There were now only three great sections taking orders direct from G. H. Q. The wholesale reorganization of

the west front could not be undertaken until there was a pause in the fighting.

Fearful Fighting Power
The loss of ground up to date appeared to me of little importance in itself. We could stand that; but the question how this, and the progressive falling off of our fighting power, of which it was symptomatic, was to be prevented was of immense importance. It was just as necessary to have a clear idea of our fighting capacity as to know whether our tactical views were still sound. The first was an extremely difficult matter.

Opinions vary as much in strategic and tactical as in political and economic questions. It is just as difficult to carry conviction. The symptoms are recognized, but the underlying causes are the subject of controversy. In such circumstances a cure is a difficult matter. The army is a very conservative body. It was in no sense time and war made no difference.

My mental picture of the fighting at Verdun and on Somme had to be painted a shade darker in view of what I had just heard. The only relief in it was the broken of our German men, who had suffered to the extreme limit of human endurance for the sake of the Fatherland. I cannot repeat all the moving stories of the battle which I heard.

German Guns Silenced
I began to realize what I task the Field Marshal and I had undertaken in our new spheres, and what a burden we should lay on the leaders and troops in the west, if we drew on them still further for our offensive in the southwest.

On the Somme the enemy's powerful artillery, assisted by excellent machine gun observation, and fed with enormous supplies of ammunition, had kept down our own fire and destroyed our artillery. The defense of our infantry had become so flimsy that the massed attacks of the enemy always succeeded. Not only did our morale suffer, but in addition to fearful wastage in killed and wounded, we lost a large number of prisoners and much material.

The most pressing demands of these officers were for an increase of artillery, ammunition, aircraft and balloons, as well as for more and more punctual allotment of fresh divisions and other troops to make possible a better system of reliefs. The breaking off of the attack on Verdun made it easier to satisfy their wishes; but even then we had to reckon in the future with considerable wastage. If only on account of the local conditions it was possible that the French would themselves make an attack from the fortress.

Had to Leave West Soils
Verdun remained an open wound. It would have been better to withdraw our positions out of the center area.

At the time I had not a thorough vision of the local difficulties of the Verdun fighting. After the Somme, the fortress still required the most consideration, but in spite of that the 5th army would have to surrender a considerable amount of artillery and aircraft.

The other armies would have to be dealt with still more ruthlessly. They would have to hold longer fronts and release divisions, artillery, aircraft and balloons for the battle front. Weak spots would naturally result; but we should have to put up with this. If we intended to hold on the Somme, that was inevitable, as no new lines had been prepared. G. H. Q. could at best count on a few new divisions, which were gradually got ready.

Had to Rest Men
It was very possible, therefore, that the latter supply of divisions, that Rupprecht's Army Group would gradually be relieved of the necessity of living from hand to mouth. It was then to be hoped that a proper system of pulling in and taking out of divisions in succession would result. I had to attach the greatest importance to this, on consideration of the internal organization of the Army and in the interests of the troops, was suffering.

After G. H. Q. had given help to the western front, I firmly insisted that units should not be pulled up. Only then did it had not been possible owing to force of circumstances. This special arrangement did not get rid of the necessity of continually relieving worn-out divisions.

A very essential, and, indeed, difficult and responsible task of my Operations Department was to have divisions always ready which could immediately be made available for the Somme battle.

The condition of the troops had to be accurately gauged, so that a would arrange for their removal from a quiet zone for service on more or less important sectors of the battle line.

The reinforcements which were released for the battle could not be sent up to the front line in reaction. The

cur young men, the freedom of the air drew them from the trenches. But the saying of the old "Directions for Infantry Exercise" will always remain true in war: "The infantry bears the heaviest burden of a battle and requires the greatest sacrifice; so also it promises the greatest reward."

Heavy indeed is the burden of the infantry in this as in other wars. They have to endure the heaviest bombardments of the enemy, lying quietly in dirt and mud, in damp and cold, hungry and thirsty, they must await the overpowering assault, until, learning the safety of their shelters, face to face with death, they must rise to meet the destroying storm.

Such is their life. It can be endured only when discipline has prepared the way, and when a deep love of the Fatherland and an imperative sense of duty fill the heart. The glory is great. But the highest reward lies in the proud consciousness of having served the Fatherland more than all others, and in the sense that one's own courage has won victory over the battle.

Those who have stayed at home cannot picture it to themselves too often. Before such heroism they must bow the head in silence and not talk.

Praise for Other Arms.
In appraising achievements, equal justice must be done to all those who fought like the infantry. The pioneers, the dismounted cavalryman, the field-telegraphist have equal glory. To all of the same fine sentiment in the training regulations applies.

In speaking thus, I do not wish to belittle what the other arms of the service accomplished. They all had the same devotion and care from G. H. Q. The airman, too, the feeling of victory, the deep satisfaction of knowing that even in the air

a man has his worth. But he was not subject to the disintegrating influence of battle.
The artillery had to endure the same strain as the infantry. The longer the war lasted, the higher their losses became. In defense as in attack. It became increasingly clear that they were the keystone of the battle and the unit of the front.
All the same, the artillery need not fight with the infantry over their sentence in the regulations. No tested the suggestion that the infantry is the queen of arms. It was by some error that this statement had found its way into an artillery training manual. There is no queen of arms. They all have equal rights to the title, for all are equally necessary. It is impossible to get on without one of them.

LAZZARI

—An Edison Discovery!

All America rises to acclaim Carolina Lazzari, the wonder-contralto of the decade.

The Metropolitan Opera House is not big enough to hold her admirers. The whole continent pleads for concert dates.

Edison picked "The Meteor" several years ago. Then she had no reputation. But Edison discovered that she had a voice. Edison has the only scientific system for measuring the quality of vocal and instrumental art. It is called the Edison Method of Voice Analysis.

The NEW EDISON
"The Phonograph with a Soul"

The qualities that make an artist great are the ones that are not teachable. The qualities that make a great voice are the ones that are not teachable. Only Edison knows with scientific accuracy how to choose these voices which are voices of perfection. You will find that Edison's art is the art of the voice with great voices, the instrumentalists of

MRS. M. MANLEY SEES HOPE FOR MANY FRIENDS

Ashland Lady Confident Others May Find Same Relief In Trutona

ASHLAND, KY., Nov. 6.—"I think Trutona is a very good medicine and I can recommend it to all of my friends, suffering as I did, and feel sure they will gain a wonderful lot of relief." Mrs. M. Manley, 603 East Front street, Ashland, said recently.

"The trouble seemed to be principally with my stomach," she continued. "My appetite was poor and I was usually in a constipated condition. I never had any desire to eat breakfast and when I did it was a lot of trouble. I didn't sleep well at night, either."

"Although I have been taking Trutona only a few days it has made me feel a whole lot better. The food I eat agrees with me now as I'm not bothered with the constipation any more. Why, I can hardly wait to eat my breakfast these days and what I eat never hurts my stomach one bit. I sleep better at night, too, than I have for some time and I feel better when I get up in the morning."

Trutona, the perfect tonic, is now being introduced and explained in Portsmouth at Warner Bros.

PORTSMOUTH'S POSSIBILITIES UNLIMITED

Campaign No. 2
 Inspired by the glowing report of the pioneer, Isaac Bonser, a little group of five men started, in the spring of 1790, on the long, tedious journey across the mountains, trailing only for the roads to open. That was, of course, for the first part of the way. After they reached the Monongahela at Lee-town, they built a boat large enough to transport their families and goods to their destination—the little point at the junction of two rivers which had seemed to Isaac Bonser to have unlimited possibilities.

Clearing was immediately started, industry which was to permeate the valley in order that the land might be ready for crops in the early spring of the next year, and in 1797 the first cultivated crop was harvested from a little field of eight acres, well fenced to protect it from the incursions of wild deer. Industry progressed rapidly in the little settlement, and in 1798 was erected and put in operation the first manufacturing plant in Seneca county—a mill situated on a small tributary of the Little Seneca, about a mile from the Ohio and owned by Isaac Bonser, the man who had first selected the site for the settlement, and to whom must be given the credit of being the father of Portsmouth.

"ARMISTICE DAY" TO BE CELEBRATED BY BIGELOW MEN'S BIBLE CLASS SUNDAY

PE-RU-NA

Made Me a Well Man

Mr. Louis Young, 1652 Cufford St., Rochester, N. Y., writes:
 "I suffered for thirty years with chronic bowel trouble, stomach trouble and hemorrhages of the bowels. We bought a bottle of Peru-na and I took it faithfully, and I began to feel better. My wife persuaded me to continue, and I took it for some time as directed. Now I am a well man!"

Suffered thirty years with stomach trouble and hemorrhages of the bowels.

Liquid or Tablet Form.

With the anniversary of the signing of the armistice in the World War, coming next Tuesday, November 11, Mr. George D. Selby, president of the Men's Bible class of Bigelow church, has issued an appeal to all members of the class to be present Sunday morning, as a tribute to the "Boys of Bigelow" who answered the call of their country.

"I know there is no danger of any of us forgetting what the 'Boys' did, but one of the best ways to keep before us the meaning of the world war, and the sacrifices made by our young men, is never to grow lax in remembering the great occasions of this conflict. I trust that every member of Bigelow class will make a special effort to come Sunday," Mr. Selby said.

The lesson will be taught as usual Sunday by Mr. Orla E. Rieley. There will be no special program for "Armistice Day," but the burden of the silent prayer will be a tribute for those who paid the supreme price, and an appeal for all that is best for those who survive.

Boosts Chamber Of Commerce

During the intermission between the plays given at the High School last evening by the English Department of P. H. S., in the promotion of Better Speech Week program, Mr. E. A. Powell gave a short, but forceful address on "The Chamber of Commerce,"

which is being organized by the civic organizations of the city. "If a campaign for Better Speech—why not a campaign for a better city, all around?" Mr. Powell asked in his opening remarks. "Have faith, hope and performance," the speaker said. He urged those present to get behind the splendid work of the campaign committee of The Chamber of Commerce, and work for the betterment of Portsmouth.

Meaning of Veldt.
Veldt is a changed form of the Dutch word "veld," the same as our English word field. It means simply open ground or prairie. Westervelt means west field; Roosevelt, rose field; Blauvelt, blue field. There are other Dutch names ending in "velt," and many parallel names in German and other tongues.

PATROLMAN PAYNE CHANGES PLEA, IS FINED \$50.00 BY JUDGE THOMAS

Patrolman Noah Payne was fined \$50 and costs by Judge Thomas Friday when he appeared in court with his attorney, A. Z. Blair, and changed his plea of not guilty to guilty to a charge of assault and battery upon Edward "Red" Clifford on August 31 last.

Payne was indicted together with Patrolman Pearl Riskey for assault and battery upon Clifford, the assault occurring at the police headquarters where the prisoner was taken following his arrest which resulted from a clash with the officers at Tenth and Chillicothe streets.

Payne, after admitting hitting Clifford once with his fist after reaching the police station when the prisoner resisted being searched, told the court that Riskey struck Clifford several times with a club and would have killed him had he not interfered, said the officer.

Payne's story of the trouble on the street with Levermer and Clifford was supported by other witnesses. In passing sentence the court said: "Mr. Payne, your attitude in coming into court and entering your plea of guilty is such as to commend itself—you did not flee as the

other man did, showing you wanted to play fair—your story of the street trouble is substantiated by others and conclusively shows that up to the time you reached the police station you were acting in your proper self-defense. It is a well known fact that the beating of prisoners down there was a custom which was not only tolerated, but encouraged, but as you say, this is the first and only trouble you have had since being on the police force, and being convinced you have told the truth, the court will not be unduly harsh with you and will fine you \$50 and costs. Payne promptly paid the fine and was released.

Patrolman Riskey, who fled just prior to the return of the indictment early in September, is still a fugitive.

from justice. He is said to be in Florida.

Clifford, victim of the assault, is still in the county jail, where he was sent by Mayor Kaps shortly after the trouble, to serve 90 days on a charge of resisting an officer.

PRESIDENT OUTLINES HIS POLICY

(Continued from Page One)

Senator Hitchcock was with the president for half an hour. Mr. Wilson received him promptly up in bed. Senator Hitchcock said the president showed keen interest throughout the conference and expressed his judgments and opinions energetically.

The senator outlined the plan to be followed in consideration of the committee recommendations and the president gave general approval.

Senator Hitchcock explained to the president the present status of the treaty and gave it as his opinion that the Republicans could secure adoption of the country reservations while the senate sat in the committee of the whole, as only a majority vote was required.

"Our intention then," the senator said, "if the reservations still are in their present form, is to oppose the production of ratification. Some Democrats, of course, probably will not line up with us on this, but I am confident we have enough votes to defeat a resolution of ratification by a two-thirds vote."

"We will then offer a resolution of ratification, which I hope is defeated," the senator said.

The senator was asked what the next move would be and replied that he would be the point at which a compromise might be effected.

Celebrating The Birth Of Underselling In Portsmouth

"TO HAVE BEEN FIRST—PROVES ANTIQUITY—TO HAVE BECOME FIRST PROVES MERIT."—Three years ago the Portsmouth Dry Goods Co. started to undersell on quality merchandise—and since the first Opening Day we have led all stores in giving big values. A \$22,000,000 laying power—a chain of 193 live stores—32 expert "buyers" who stay in New York 52 weeks in a year securing the best the markets afford—selling for cash only—these are some of the reasons we sell for less. Other things our customers praise are the fairness of our methods and the dependability of our merchandise. At any rate we took the lead three years ago and always held it—and always will hold it. This Anniversary Sale is to show our appreciation to our thousands of regular customers, and to give them values that prove that appreciation.

The Markets

NEW YORK STOCKS

NEW YORK, Nov. 7.—The uncertain market situation continued to hang over the stock market at the outset of today's trading, first quotations showing a mixture of advances and recesses. For the most part, however, changes were limited to fractions, the only important exceptions being some of the minors, which rose a point, while several of the active steels were down lower with shippings. Rubber and chemical issues represented the strong specialties and the low priced ones were again active and firm. Trading continued to reflect professional pressure during the morning, but the market was active in the afternoon, with the relative absence of the heavy losses. Steels, equipments, motors and oils recorded advance declines of 1 to 4 points, Crude being conspicuous for its recovery of 7 1/2. Pools were active in sympathy with the relatively obscure specialties, American Linseed, General Chemical and Barrett gaining 2 to 4 points. Italic moved with narrow belts and shippings were featured by a brisk rise of 4 1/2 points in Atlantic Gulf. Call loans duplicated yesterday's initial rate of 12 percent. Speculations were at highest levels of the day in the last hour with oils and metals, but steels and equipments became reactionary again. The closing was irregular. The comparative ease of money contributed to today's more orderly but less active stock market, of which metals were a strong feature. Sales amounted to 12,000 shares.

CHICAGO GRAIN AND PROVISIONS

CHICAGO, Nov. 7.—Rainy weather and a prediction of more led to a sharp decline in the price of corn. Opening prices, which ranged from 2 1/2 to 2 3/4 higher, with December at 1 3/4 to 1 1/2 and May at 1 1/2 to 1 1/4, were followed by a general setback that more than wiped out all the gains. The close was heavy, 1 1/2 to 2 1/2 net lower, with December at 1 1/2 to 1 1/4 and May at 1 1/2 to 1 1/4. Oats displayed weakness, owing to absence of demand. After opening unchanged to 1 1/2 to 1 1/4, the market declined a trifle, but then underwent a decided recovery. Higher quotations on hog lifted provisions. Besides, liberal shipments both of fresh and cured meats were reported. Later the market eased down somewhat when corn trended weak.

30 Cases Of Trachoma Found In Local Schools

Editor Times:—An anti-trachoma campaign conducted by the state board of health has been completed in Scioto county. During this campaign, 10,577 school children were examined, about evenly divided between the schools in the city of Portsmouth and those in rural districts. Of these, 175 were said to have been suffering from trachoma. About five-sixths of these cases were found in the rural schools. That means that there were not more than 30 cases found in the Portsmouth schools.

A letter from John L. Stewart, principal of the Parkersburg High School, complimenting the P. H. S. football eleven on their fine standard of sportsmanship, has been received by Principal G. E. Stanley of the local High School. The letter which follows and the note from Mr. Stanley indicate that P. H. S. does not play football merely to win, but enters its athletic contests to put up a hand of sportsmanship that can be extolled by none.

Excell. High School, Portsmouth, Ohio, Dear Sir:—

Allow me to congratulate you on your splendid representatives. The boys played a clean sportsmanlike game. The final score does not indicate the strength of the contest. The boys worked so well together as a machine that I cannot single out any individual. Congratulations for your coach for his developing such a splendid sportsmanship. Yours truly, JOHN L. STEWART.

Editor Times:—The above letter is a tribute to the kind of athletics which P. H. S. desires and means to maintain above everything else. The personal touch in everything is a splendid sportsmanship.

MAY BE ADDED TO TAX DUPLICATE IMMEDIATELY

COLUMBUS, O., Nov. 7.—In an opinion to the state tax commission today, Attorney General Price held that additional tax levies authorized for local road purposes in Tuesday's election may be added to the 1919 duplicate at once and collected at the next December collection.

The attorney general also held that where it is necessary, county budget commissions may be reorganized to re-adjust the levies.

County and district superintendents of schools cannot draw additional compensation in the form of expenses for attending county teachers' institutes, Attorney General Price ruled today in an opinion to F. D. Pearson, state superintendent of public instruction.

Charles C. Hey, a life-long resident of Portsmouth, passed away at his home near Lombardsville Nov. 6, at 7:30 a. m., after an illness of stomach trouble. He had been in ill-health for some time, but his condition was not regarded serious until Wednesday, when relatives were called to his bedside.

The deceased was born July 18, 1867, and leaves his wife, Mrs. Mary Hey, and two children, Orville Hey and Mrs. R. M. Miller of Columbus, and the following brothers and sisters: Jacob and William Hey, Mrs. Walter Stone and Mrs. Anna Hock of this city, and Mrs. Louis Fisher of Sanford, Florida. Mr. Hey was employed as salesman for the Jones-Ferguson company for several years and leaves a legion of friends to mourn his demise.

Funeral services will be held from his home on Bear Creek Saturday morning at ten o'clock. Interment will be in the family lot in Greenlawn cemetery.

Gerald McDaniel
Word was received Friday by Rev. G. W. Brown, of the Children's Home, of the death at Columbus, of Gerald McDaniel, a former ward of the Home. The young man died at a Columbus hospital at nine o'clock Sunday night after a brief illness with blood-poison, complicated with pneumonia. Gerald's parents are dead and he became an inmate of the local Home when quite young. Ten years ago he was adopted by a Columbus family and has since resided in that city. He was about 20 when he died.

A brother, Lowell McDaniel, is also living in Columbus and will accompany the body to Portsmouth on Saturday, together with an official of the state board of charities. The body will be taken to the home of Mr. and Mrs. Clarence Font, 1712 Grandview avenue, and burial will take place from their home either Saturday or Monday, the announcement to be made later. Interment in Greenlawn cemetery. Mrs. Font is an aunt of the deceased.

Mrs. Kate Pollitt
Mrs. Kate Pollitt, aged 74, for many years a highly esteemed resident of Vaneburg, died at her home in that village several days ago.

Jacob F. Fritz Funeral
The funeral of Jacob F. Fritz, who died Wednesday night at his home 1722 Highland avenue, will be held from the home at two o'clock tomorrow afternoon with Rev. Albert Marling in charge, assisted by Rev. P. C. Wolf of Manly church.

Bellies Post G. A. K. will attend the last rites in a body. Burial will be in Greenlawn.

Boy Scout Wrestlers To Meet
The Scouts of the Franklin Avenue Troop, at their meeting this week, issued a friendly challenge to all Scouts of the city, to meet their champion wrestlers in the heavy and light classes, Andrew Stenhouse and Lawrence Kimble. This challenge was promptly accepted by Troop 3 of All Saints Church. The champions of the two troops are to meet at the Franklin Avenue church on Monday night; John Howerton of Troop 3 to meet Andrew Stenhouse, both weighing 118 pounds, while Selby Suddler has been selected to meet Lawrence Kimble in the seventy-five class.

Mr. Spencer Complimented
The current issue of Safety Hints, published by the Withaker-Gleason company carries a splendid picture of J. J. Spencer of Gallia street and the following complimentary write-up: "J. J. Spencer recently passed his seventy-fifth birthday. He is the source of much interesting information at the Portsmouth office, and his bright and cheery 'Good morning' is a good starter for the day's work, while his genial good nature carries those who come in contact with him through the day."

Mr. Spencer served his country in the Civil War, being the only veteran of that struggle in the company's employ at the Portsmouth works. He should be to every younger man a "Safety Command" rather than a "Safety Hint."

We extend to you, Mr. Spencer, our hearty wish that you may have many more happy years of useful life.

A VITAL FACTOR

It is natural for a growing child to crave what may seem an over-abundance of food. The vital, important factor is to assure not only a plenitude of food but food that contains those substances that promote healthful growth.

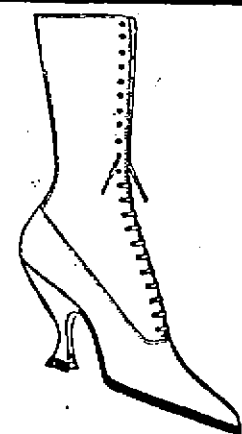

SCOTT'S EMULSION

is daily helping to nourish and strengthen many boys and girls through the trying period of growth.

You should not hesitate to give SCOTT'S EMULSION to a child of any age.

The exclusive grade of cod liver oil used in Scott's Emulsion is the famous "B. & B. Process" made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed.

WHAT IT COSTS TO JOIN C. OF C.

As one of the members of the Campaign Executive Committee, P. H. Winter is taking an active interest in the Chamber of Commerce of Portsmouth. This morning he called to the attention of the campaign staff a paragraph recently published by the Chamber of Commerce of Freeport, Ill.: "It costs three cents to buy a daily paper, and you buy one every day. It costs you two cents to mail a letter—you probably mail three or more every day. It costs you a nickel to ride to business on the trolley—you probably use the trolley at least once a day. It costs you six cents or more for your after-dinner cigar—you probably smoke one or more a day. And it costs less than even cents a day to hold a \$25.00 membership in the Chamber of Commerce!"

To Arrange For Smoker

Tuesday evening, November 11th, at eight o'clock, is the time set for the first great public meeting of the Chamber of Commerce Campaign. At this time a smoker will be held in the Elks Club, to which all the men of Portsmouth and the surrounding territory are invited. An out-of-town speaker of note will be present to lay before the men of Portsmouth the true meaning of the new movement, and its significance to the city.

"The speaker is a man of wide experience in Chamber of Commerce organization," said James B. Gibson, the campaign director, this morning, "but we cannot yet announce who he is."

The arrangements for the smoker are in the hands of Henry Bertram and U. G. Harris, who have promised an evening full of entertainment and interest for all who attend. Community singing will be a feature of the gathering.

Brakeman Is Killed

HUNTINGTON, Nov. 7.—E. W. Bliss, aged 27, Chesapeake and Ohio brakeman lost his life in an accident at Harboursville at 8:30 o'clock last night.

Home Coming

Every American takes a remarkable interest in Charles M. Schwab and his picturesque career. Schwab, it was who put over America's mighty ship building program and his vast "bite" in winning the war for democracy. Before that, however, Schwab, had proven his tremendous abilities as a manager in the steel industry of the United States. Lyman H. Howe's Travel Festival, which comes to the Sun one night only on Monday Nov. 10 upon the silver jubilee tour, has secured a remarkable motion picture tour of the vast Bethlehem, Pa., steel plants, where America's steel industry centers and where Charlie Schwab first made his name.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, menthyn, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic, first try the effect of a little Epsom's Magnesia—not the ordinary commercial carbonate, effete, oxide or milk but the pure bicarbonate magnesia, which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, acid, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow everything you eat.

You will find that provided you take a little bicarbonate magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bicarbonate magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

Institute Opens Today

The New Era Institute of the Portsmouth Presbytery will be held today in the Second Presbyterian church. The first session will be held at 2:30 and the second at 7 o'clock.

Dr. Robert E. Pugh, Dr. Moses Breze, both connected with the state work of the New Era Movement of the Presbyterian church, and Dr. John Richards, of Auburn, New York, will be the speakers at these meetings.

Representatives from each of the Portsmouth churches, at the call of the moderator, Dr. F. W. Stevens, of Russellville, will be present at this meeting. All of the church officers, young people's society leaders, Sunday school teachers and other workers are urged to attend these meetings.

Four hundred such institutes, instructing workers in the work of the church, are being held throughout the country.

To Reduce Your Weight Quickly and Easily

If you are too fat, or if your figure has become flabby, and you are carrying a burden of annoying unhealthiness, the cause is, ten chances to one, lack of oxygen carrying power of the blood and faulty assimilation of the food. The little of the food is being made into food hard tissue and muscles and too much into little globules of fat.

VIGOROUS MEN AND WOMEN ARE IN DEMAND

If your ambition has left you, your happiness has gone forever unless you take advantage of Wurster Bros. sufficient offer to refund your money on the first box purchased if Wendell's Ambition Pills do not put your entire system in fine condition and give you the energy and vigor you have lost.

Be ambitious, be strong, be vigorous. Drive the ruddy glow of health to your cheeks and the bright sparkle that makes perfect manhood and womanhood to your eyes.

Here they are, toys for children of all ages, for girls and boys—and some that even the grown-ups will play with on the sly. Drums, velocipedes, pushers, cannon, automobiles, mechanical toys ingeniously constructed, puzzles, chemical and magical outfits, blackboards, doll-carts and

DOLLS

which we are featuring. We are not exaggerating in saying that we have a more complete and extensive line of toys and particularly of dolls than anyone in the city—and they are all substantial and designed to stand lots of punishment. Our aeroplanes, too, will make a hit with the youngsters. But just a few more words about our dolls. We have them in all sizes from twelve to twenty-four inches dressed in many styles—blondes and brunettes—boys and girls. And the doll carts in which to wheel them will appeal. There are also sets of doll dishes which the little girls will be unable to resist. Bring the kiddies in and let them look around. You will be sure to find out what they want, for they'll see it here.

See Horchow's First For Toys

Though this talk has been all about toys, don't forget that we have provided for grown-ups' gift needs as carefully as we have for the youngsters.

BOY HIT BY AUTO

Lafayette, four-year-old son of Mrs. Emil Helt, who resides on Seventh street near Washington, was badly injured this afternoon when hit by an automobile.

The child's hip was cut and he suffered multiple bruises about the head, face and arms. Mrs. Helt, who is employed in the Ever-Eat restaurant, says the driver of the machine failed to stop.

Is Held To Grand Jury

Orrille McCutless, 35, Easttown young man, arrested on a charge of petit larceny in connection with the theft of a bicycle valued at \$250 from Vernon Hall, 1914 Sixth street, was held to the grand jury under \$200 bond following his preliminary hearing before Mayor Kops last night. The evidence adduced at the hearing showed that the defendant after taking the bicycle dismantled it and concealed the parts in various sections of this city and New Boston. The parts were recovered, the police say.

To Put Down Third Track

The work on construction of the third track on the C. and O. Hallway system, from Ashland to Russell, Ky., to allow the Lexington division of the C. and O. to enter Russell will be begun by the first of the year. It is understood.

The blue prints for the work were shown in Russell several days ago and government representatives have looked over the various places along the proposed route where fills will be necessary.

The track is to be laid on the north or river side of the present double track.

Entrance to the Lexington division into Russell means the continued enlargement of terminal facilities there and will mean the continued growth in population and prosperity of our Kentucky neighbor, as well as Louisville.

The division's entrance will greatly increase the business of the first street yards, shops and offices and will require the enlargement of the various working forces of the terminal—troutman.

RESTORES VITALITY

Gives Strength to the Nervously Weak and Run-Down.

Peptiron is both medicine and food for the blood and nerves. It is in full accord with advanced science as to the proper treatment of anemic and neurasthenic conditions, in which the need of more and better nourishment is so apparent. It combines iron and manganese with such other ingredients as to supply the deficiency of red blood corpuscles in anemic, repairs the waste of nerve tissue in nervousness, gives color and stamina, and restores vitality.

"I was run down and nervous. Peptiron has done me great good."—Serena Hilschlag, Tivoli, N. Y.

P. H. S. GETS AWAY FOR ATHENS

Off for Athens—16, strong and the football. Athens High eleven has not been stored upon this season by any Ohio team, and they expect to down the local boys with ease.

Couch Hess put the varsity through a stiff practice session this week and he is confident that the charges will make a creditable showing against the lucky eleven representing Athens High.

Owing to the speed that some of the scrubs have shown during the week-end practice, no lineup has been selected and it is undecided just who will start in the fracas.

The team will witness the Ohio University-Baldwin Wallace gridiron contest at Athens Saturday and return home Saturday night on the 8 o'clock B. and O.

CHILLICOTHE ELEVEN HERE SUNDAY

Every N. & W. player who expects to take part in the big game against Chillicothe Sunday on Millbrook gridiron should be out to practice tonight at 6:30 o'clock on Gallia, near the N. & W. freight house.

Chillicothe has developed a fast team of former high school and college stars and will come here with the intention of giving the locals a sound trouncing. The game will be called at 2:30, sharp.

SPORT SALAD

East High School of Columbus triumphed over North High's eleven yesterday and won the high school championship of Columbus.

These two teams have met for the last 21 years and the victory this year was the fifth for East High the score in this years play being 7 to 6. P. H. S. will likely play one of the Columbus High elevens here on Thanksgiving Day.

Columbus, Ohio, November 7.—De-termined not to fall by wayside now that they are in front of all other Western Conference teams, Ohio State buckles, favored to win the Big Ten title, this week are redoubting their efforts to vanquish Purdue, Wisconsin and Illinois, the three remaining teams on their schedule.

Purdue, contesting with Ohio State, will appear at Ohio State Field Saturday. While the Hottentotters have yet to win a conference game this fall, the Capital city eleven will not let down in their efforts to win, and will try their best.

Boxing appears to be more profitable in England than America. Charles Cochran, premier promoter of the British Isles, cleared \$300,000 on two bouts, one of which was the White-Stone affair. The poor figures on a \$150,000 card with Becker and Carpenter, with a profit of \$15,000.

Tex Rickard worked a year on the Willard-Denney affair and his profit did not come near reaching the sum netted by the Englishman.

Coach Robert Hess, of the High School, has already scheduled about 10 games for the basketball season. He is taking on strong teams, and the outlook for a winner in basketball this year is bright.

An attempt will be made while the football team is at Athens to arrange for a basketball game there for later in the season.

Drys Claim All 4 Amendments; Wets Claim Two, 24 Counties Unreported

WETS HOLD LEAD W' TH DRY COUNTIES STILL OUT

COLUMBUS, O., Nov. 7.—Actual returns reported to Secretary of State Smith from 61 out of 88 counties still show the wets leading on all four of the prohibition proposals submitted Tuesday to Ohio voters. These returns, however, are disputed. L. H. Gibson, manager of the Ohio Home Rule Association, (the wet organization) conceding the loss of two of the proposals and J. A. White, manager of the Anti-Saloon League forces claiming the dries have won all four proposals.

Statistics in the office of the secretary of state predict that at least one of the proposals, the Crabbe state prohibition enforcement act, will be won by the wets and that the final result of the ratification of the legislative endorsement of the federal prohibition amendment will be close. They say the other two proposals, the repeal of state-wide prohibition and the 2.75 beer proposals, will be easily overcome by the 24 counties yet to report, most of which gave substantial dry majorities a year ago.

Gibson concedes the defeat by the dries of 2.75 beer proposal and also the proposal to defeat state-wide prohibition. The wets, he states, won the Crabbe prohibition act and the federal prohibition amendment.

OUTBREAKS OF DISORDER IN YOUNGSTOWN

YOUNGSTOWN, O., Nov. 7.—Minor disturbances broke out in widely separated parts of the city today in connection with the steel strike. Twelve women were arrested in East Youngstown after they had marched up and down the streets and attempted to prevent workmen entering the Youngstown Sheet and Tube Company plant. No pepper was thrown as in previous riots of women there. A street car was bombarded by a mob, but no one was seriously hurt.

Other disturbances included: A workman beaten while on his way to a mill; picket staked by negro workman, whom he accosted; another negro held for carrying a knife; picket arrested after entering the Carnegie Steel Company plant and attempting to persuade workmen to come out; a strike failed for assault; five men arrested for carrying concealed weapons. A street car carrying men to the Republic Iron and Steel Company plant and the Youngstown Sheet and Tube Company plant was bombarded with rocks, several passengers being cut by flying glass. A passenger-tried, three shots into the air, it is said, dispersed the mob before police arrived.

The Republic Iron and Steel Company today reported resumption of operation in its plate mills, while the Ohio works of the Carnegie Steel Company announced the blowing in of another blast furnace, making four of six stacks in operation.

PASSENGER TRAIN SERVICE CURTAILED; BAN ON BUNKERING FOREIGN SHIPS; CITIES APPEAL FOR FUEL RELIEF

CHICAGO, Nov. 7.—Curtailed of the central west. Regional directors of passenger train service, discontinuance had orders to eliminate service where bunkering of foreign owned vessels absolutely necessary in the public interest.

West Virginia operators reported 44 mines in union districts being worked, as the strike of approximately 425,000 bituminous coal miners today also was reported by Colorado mine operators. New Mexico producers said nation further indications of the distress in store, should there be a protracted suspension of mining operations. Other disarrangements of the country's routine were expected today, with little change in the general conditions surrounding the strike itself.

To the states already reported suffering from a coal shortage, Kansas, Nebraska, Alabama and Iowa, today was added Oklahoma.

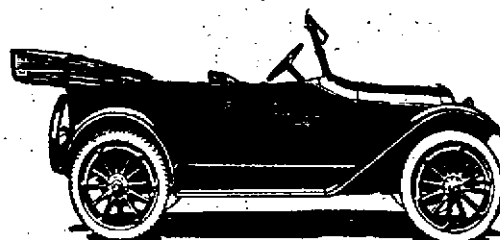

"Follow the first law of nature which is self-preservation, and take any coal you can get your hands on," was the reply of Governor J. B. A. Robertson, Oklahoma, to one country's appeal for aid. While it officially was announced by the director general of railroads that no general curtailment of train service was contemplated, six trains today had been annulled in

interest in case of a definite stoppage ton, today completed their plans for a part of the soft coal production. The next step in their fight in the American ports and to curtail train service when it was necessary for the public welfare. Industrial plants and cities were urged to conserve coal.

From some points cries of alarm were heard over the low supply of coal and in these cases consignments of fuel were ordered dispatched speedily. No unusual suffering was believed imminent, but the government was convinced that the consumption is far greater than production and retrenchment necessary. The operators claimed that conditions at the mines were improving and miners asserted they were holding out and, in some instances, ranks were being increased.

FIRE SWEEPS ATLANTA HOTEL, THREE PERISH

ATLANTA, GA., Nov. 7.—At least three persons lost their lives and nearly a score were injured, some seriously, in a fire in the Wilson Hotel here early this morning.

Damage to the building, at Peachtree and Walton streets in the downtown section, was confined to the interior.

Scores of men and women were rescued. One of the dead was a woman, who leaped to the street before the firemen arrived.

Fire Chief Cody said he feared more bodies might be found in the building. The fire apparently broke out in the second story of the three-story building, the ground floor of which is occupied by stores and a moving picture theater. Great damage was done to the interior of the hotel. The loss had not been estimated early today nor had the cause been determined.

The flames when discovered, had burst out of the windows along the side of the building and five minutes later were sucked toward the roof. By the time the firemen arrived scores of

hand, have announced they intend to continue with the court program, which has been started. The latest word from the operators is that they will not consider resuming negotiations unless the miners return to work. The stoppage of production of coal is beginning to be felt in Indiana, and to meet the situation lightless nights and curtailment of consumption of water, gas and other service secured from coal burning utilities have been ordered by the state public service commission for all cities of the state where utilities have less than two weeks supply of coal.

The situation in the coal fields of the state is unchanged.

School Is 100 Percent

Students of the Seventh A and Eighth B grades at Garfield school building are very proud of the record they made for themselves in the Junior Red Cross drive, as they are entering the Junior Red Cross organization as a 100 percent school, each of the 28 pupils contributing a quarter dollar which they themselves have earned. Their excellent record in this work is due to the leadership of their teacher, Mrs. I. Spears, whose enthusiasm taught the children the value of "carrying on."

This is the first hundred percent school in the city, and as each student earned his or her own entrance fee of twenty-five cents, the undertaking assumes big proportions.

Mrs. Spears today is having the students write stories of how they each earned their dues, this promising to be a series of interesting tales.

HIJACK STILL RAIDED

ATLANTA, O., Nov. 7.—An illicit still conducted by foreigners at 222 North Mahoning avenue, east side, was raided by officers last night. The outfit found consisted of an 18 gallon copper still with three barrels, 120 gallons of rye mash. The men, Paul Zepherian, Joe Hostach, Joe Holmer and Joe Hous, were taken to Sebring, where they are held awaiting federal action, the location of the still being in Mahoning county.

SHE IS NEW YORK'S FIRST WOMAN JUDGE

Mrs. Jean H. Norris recently became the first woman magistrate of New York. Mrs. Norris has been assigned to duty in the woman's court upon the recommendation of Mayor Hylan, who gave her a temporary appointment to fill the vacancy caused by the illness of Magistrate Matthew P. Green.

Why Do Rifle Barrels Burst?

Although shotguns and rifles are tested with loads which give pressures far above those produced by ordinary ammunition, swollen or burst gun barrels are not uncommon. The cause is either attributed to defective ammunition or to an obstruction in the bore, such as snow or dirt. The pressure of the powder gases themselves are not to blame, for investigation has proved that the swelling or rupture is caused by the compression of the air between the bullet and the obstruction.

Woman Lawyer B. C.

That modern woman lawyers and even Florida celebrated from the "Merchant of Venice" had their prototypes in ancient days is the evidence to be found on ancient Babylonian tablets now preserved in the British Museum.

GETS HER NO WHERE

THERE was a good deal of elation manifested Thursday, over the claim that ratification of national prohibition had been repudiated by the state election and also the Cribbe act. It is likely most of it was on a mistaken assumption. Rejecting the prohibition amendment to the national constitution doesn't get Ohio anywhere. Prohibition is now the fixed law of the land and nothing can alter this until congress passes and submits a repeal and this repeal is ratified by the proper quota of states. This is a contingency so remote that it isn't worth while for the politicians and the thrifty to build any hope upon it. The defeat of the Cribbe act leads no where either. Lawyers claim there are now no state laws regulating, controlling or prohibiting the sale of intoxicants. This isn't clear to us why, but granting it is a correct interpretation, it makes only slight matter. The national legislation on liquors is in effect. There is going to be more vigorous enforcement of them than could be looked for at state and local authority and if Ohio be without any regulatory or suppressive laws, it isn't a far guess that Commissioner Roper, who is to direct federal operations, will all the sooner concentrate his attention and his energies on this state. We have said the defeat of ratification and the state enforcement measure gets us nowhere. Let us be understood in that. It gets us into continued and exasperating contention. It gives the opponents of prohibition ample ground for contention that the tide is shifting against it and that if the people had an open expression on it they would repeal it. In so far as Ohio is concerned, that may not seem well taken, since she voted decisively enough for state prohibition, but it will hearten the liberal elements of other states to take up the fight and thus the struggle with all its annoyance and bitterness will go on through campaign after campaign.

MAY BE THE BETTER PAYMENT

PROPOSAL has been made that England cede to the United States, as part payment of her debt to the latter, several islands she owns in the West Indies. Inhabitants of the islands have inquired of the English government if it is its intention to do so. The answer is in the negative, but so couched as to carry the inference that the matter is one which the mother country will leave to the people of the islands themselves to determine. On the whole it might be better if the English isles belonged to America their natural status. In some measure they contradict the harmony of the Monroe doctrine and they, under foreign dominion, no matter how friendly it may be now, constitute something of a menace. We have no essential need apparent for them, perhaps, they are together without possibility of harm to us, but with all that a trade for them in partial payment for a debt that is likely to be long in the canceling, is not neither an unattractive, nor an unpopular proposition.

The contractor for the last stretch of work on Scioto Trail, already at work as though he means to put it through on jig time. It is this time next year will see one leg of Scioto county's journey in road building completed. And it will be right fine to be able to start from home in town and ride eighteen miles straight away on the best of highways.

A lot of distinguished citizens from Adams county were in town Thursday to see what Scioto is going to do about building a fine road their way. They were welcome and we thank them for their interest, but Scioto county considers it more of a problem as to what Adams county is going to do towards building a real road this way.

There is always the silver lining. The Democratic majority in Mississippi mounts with every county that comes in.

And again Tuesday night taught it is a mighty poor policy to count the chickens until you know they are hatched.

New York, Nov. 7.—Thoughts while getting too dark now. I'll turn back. There comes a time. All this night.

The Cheese Club is to move into the home of the National Automobile Club in Forty Sixth Street, just west of Broadway. The clubhouse is one of the most modern in America. The Cheese Club is composed of the men who write vaudeville reviews and motion picture criticisms for the daily newspapers and trade papers. The Cheese Club had been meeting daily in the restaurants of a Broadway hotel. It is the intention of the Cheese Club to build their own clubhouse shortly.

Irish Cobb has just written a successful play. He has had nothing but failures to his credit but his "Boys Will Be Boys," a comedy story of a Padua, Ky. waif and an unexpected success, brought the first sign of life to the theater and audience. Irish Cobb is in the play and there is also a credited travelogue Cobb selected himself for the cast. Every critic in town pronounced the play a success and to Mr. Cobb's genuine satisfaction only one copy reader let his first name go through as "living."

Big Mike, a Chinatown cop stopped a runaway horse the other day with his hat and got two lines in the city paper. "There was no more kick in it than in one of the Kaiser's proposals after wrong treatment by the Allies."

SHE MARRIED AN AVERAGE MAN

Jim is right. I have changed a great deal since we left Centerville. Most of the marriages out in Centerville were caused by the impossibility of the wife. Usually the poor woman was a drizzle and a dill. She had no opportunity to show her talent. She married her husband and had children. Her diversions were mostly church festivals (the most ineffective events in life was neither happy nor tragic. It was an occasional justice where she went with some other woman of her exact type and saw a body-acted, badly staged play that had failed on Broadway.

Life was neither happy nor tragic. It was simply dull. No sparks were struck from the woman's brain because she never met anything but women. I confess that in order to learn something the space must have exhibited combat. For instance, business women who fight in the ranks with the mate workers know more about human nature and the laws of existence than do housewives who talk with each other in the parks.

Wives who mix with everybody to whom every experience is grisly to the mind and even sorrow a teacher, know more of useful things than nuns and monks. And wives who are not slaves to the kitchen, the sewing room and the nursery make better companions to their husbands than those who bring no discussion to the dinner table save the husband's L.B. or baby's cough.

Whether Jim admits it or not, most of these Centerville wives had unfulfilled husbands. For when it comes to a battle between the marriage vow and the passion of human love it is usually the former that gives way. This is because love is divine and promises are unbreakable. Yet most people worship the minute thing and outrage the

Positively
"My daughter is positively delighted with her new piano," said Mrs. Jones. "She's quite familiar with it now, with all the classic compositions."

"Familiar?" exclaimed Mrs. Peppery. "Why, she's positively ill with it."

Not Changed a Bit
Professor Garner reports that the female ape says "Muhoo!" and the male ape replies "Wahoo!" Prof. Garner doesn't appear to have carried us very far. A chap on the moon last night said, "Why is it?" and the girl replied, "It's me."

Wishes He Couldn't
"My husband says he cannot understand women," said a woman. "My husband says after a marriage of twenty years he wishes he didn't."

Murder Will Out
Mrs. Clarke came running hurriedly into her husband's office one morning. "Oh, John," she cried, as she gasped for breath, "I dropped my diamond ring off my finger, and I can't find it anywhere."

"It's all right, Bess," replied Mr. Clarke. "I can across it in my trousers pocket."

She Did
"And you tell me several men proposed marriage to you?" he said, savagely.

"Yes, several," the wife replied. "Well, I only wish you had married the first fool who proposed."

"I did."

Very Liberal
"Don't you give Bessie the best part of that apple as you were told?" "Yes, I have her the seeds. She can plant them and have the whole orchard."

Back The Baby
Daddy had just gone to bed again, after walking the floor for the third time with a wailing infant and finally succeeding in getting him to sleep. Then the youngster started to cry again.

Mother said: "Dear, won't you please get up and rock the baby?"

And the "brute" retorted: "I would like to if I had a rock!"

A Slight Mix-Up
Editors have their troubles. One of these men who presides over the destinies of a Western newspaper is mourning the loss of two subscribers. One wrote asking how to raise his twins safely, while the other wanted to know how he might rid his orchard of grasshoppers. The answer went forward by mail, but by accident the editor put them into the wrong envelope, so that the man with the twins received the answer:

"Cover them carefully with straw and set fire to it, and then the little pests, after jumping in the flames for a few minutes, will be speedily settled."

And the man with the grasshoppers was told to "give 'em out and rub their gums with a bone."

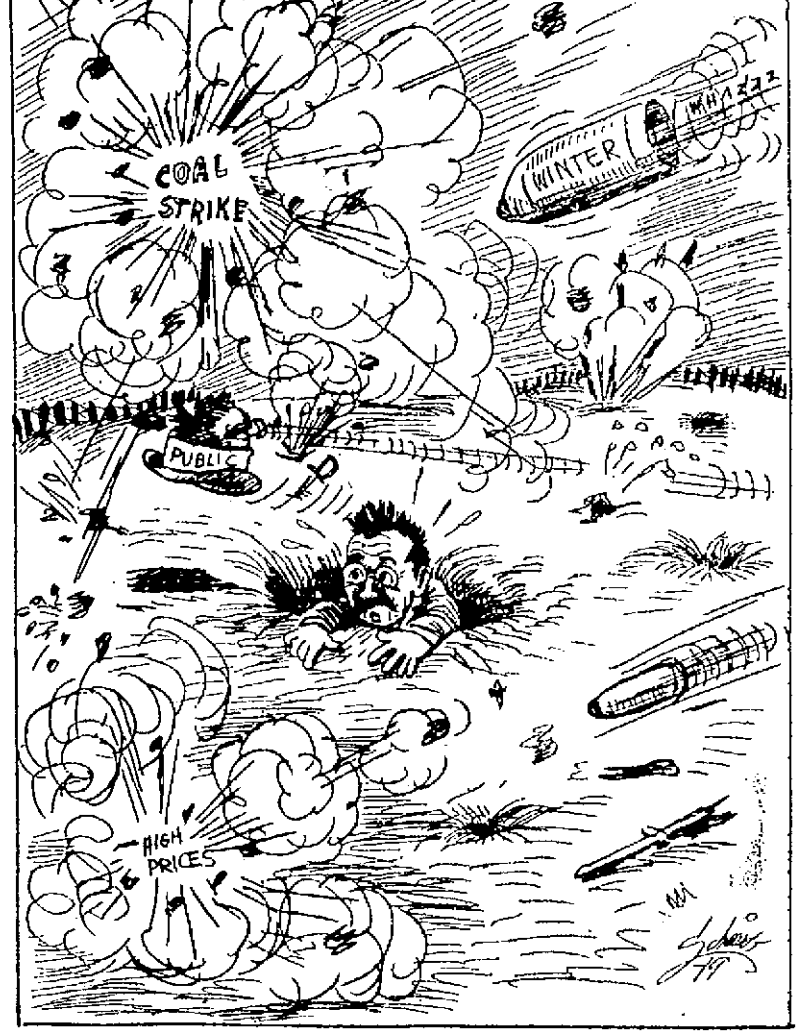

And They Did
Said an Irish leader: "Min, ye are on the verge of battle. Will ye fight or will ye run?"

"We will!" came a chorus of eager replies.

"Which will ye do?" says he.

"We will not," says they.

"Thank ye, me men," says he. "I thought ye would."

Having Fills
"Look here," demanded the hand-eyed man in the menagerie tent, "are those your children over there in front of that cage?"

"Only about fourteen of 'em," replied Mr. Gap Johnson of Humbug Ridge, Ark., who was cleaning the coppers.

They are attending this meeting for the interest of the stockholders of Portsmouth. This company reports a big gusher on their site property of the Ranger Field in Texas.

Lewis County Dry.
On statewide prohibition Lewis county, Kentucky, rolled up a dry majority of 503. At Garfield the vote was 102 wet and 165 dry, at Taylor the vote was 50 wet and 35 dry and at Firebrick it was 21 wet and 51 dry.

REPORT BIG DEMAND FOR TRACTORS

"Labor troubles and unrest have got the farmers to thinking more than at the urging of the Department of Agriculture and the State Agricultural College experts combined," H. E. Frohman, Manager of The V. & M. Motor Company, who sells the Clontech Tank-Type Tractor, says.

"Two things in the present situation are plain as day to every farmer," said Mr. Frohman.

"In the first place, everything he buys, particularly the kind of help he hires, is high and looks like it is going higher."

"In the second place, the prices of corn and hogs and the other things he sells are beyond his control, and the tendency is for them to go lower."

"Then are the reasons, or at least the chief reasons, why farmers are giving more attention than ever before to cutting down costs, saving labor and at the same time increasing production, so as to make up in volume of sales what is being lost by decreasing prices."

"The obvious solution is to increase the amount of land filled by each and every man employed on the farm, without increasing hours, or the difficulty of the work."

"And when you get down to brass tacks this means increasing the amount of power, either horse power or mechanical power, under the control of each farm worker."

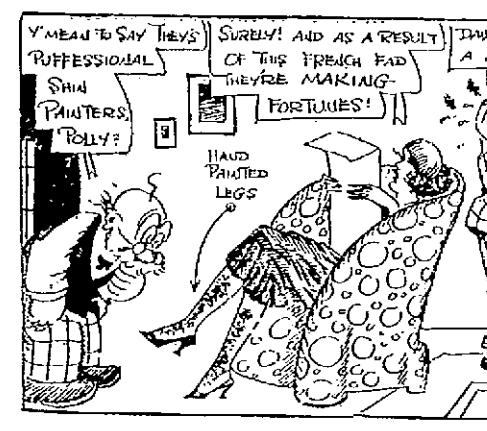

"There has been a tendency in this direction for many years—since the old one-horse plow first began to give way to the bigger plow or the gang plow pulled by three or four horses."

"Besides this, the right tractor gives the farmer the necessary power to do his work at the right season, and to put in his crops as they are planned, without feeding a lot of horses through several months of idleness. Such a tractor will take the place of from eight to ten horses—and doesn't eat when it isn't working."
